

Weekly Report #10

Date: 11/3/14

Project Name: Lion Stalking Device

Group Number: 22, Dr. Silva

Group Members: Joshua Wong, Rachel Bilski, Quinn Kern Allely

Current status of project:

In the past week, we completed our progress report and presentation. We chose our final design to be a combination of the zip line and moving ball.

Work planned for next week:

This week, we plan on meeting to discuss what needs to be done going forward. We want to decide which component of the design we should make for the physical embodiment, so that we can order necessary components. We also will split responsibilities for further research on the design details.

Anything needed from client or TA or instructor to continue work:

We do not have any questions at this time.
