

Weekly Report #7

Date: 10/13/14

Project Name: Lion Stalking Device

Group Number: 22, Dr. Silva

Group Members: Joshua Wong, Rachel Bilski, Quinn Kern Allely

Current status of project:

In the past week, we continued brainstorming creative solutions to our problem on our own. We looked at the rubric for the next paper and set a tentative timeline for that. We also received a picture and dimensions of the lion enclosure.

Work planned for next week:

This week, we will meet on Tuesday to break up responsibilities for the paper and wrap up initial brainstorming for device ideas.

Anything needed from client or TA or instructor to continue work:

We are wondering how many solutions we should aim for. We also want to clarify how in depth we should explore each of our preliminary designs.
