

Weekly Report #8

Date: 10/20/14

Project Name: Lion Stalking Device

Group Number: 22

Group Members: Joshua Wong, Rachel Bilski, Quinn Kern Allely

Current status of project: We are also continuing the conceptual analysis of various proposed device ideas. We have made sketches of our device ideas, and have made descriptions for them that explain the purpose of the device, and the mechanisms behind their functionality. We are currently working on detailed descriptions of the devices. This will culminate in the second paper, which is due on Friday this week.

Work planned for next week: Next week, we plan to continue the development of the best device, as determined in our paper.

Anything needed from client or TA or instructor to continue work: Nothing at present.
